Key Takeaways

Industry assets remain concentrated among leading fund houses, with total AUM reaching ₹10.44 lakh crore. SIP participation continues to contribute significantly to industry growth, generating cumulative inflows of ₹939.72 thousand crore. Market activity is supported by a diversified product landscape across 40 active schemes and approximately 5 thousand investor folios. The AUM distribution chart indicates that a small number of AMCs continue to account for a substantial share of industry assets.
